

### **What is the fallacy here?**

“The Democratic Party has failed to mobilize the working class. Study after study has demonstrated that in recent years, the Democrats see declining support among people with low incomes, zero net worth, and no college degree.”

Response: “Your criticisms of the Democratic Party are baseless, given your lack of definition. Before we proceed any further, we must engage in a nuanced discussion of the varied and complex definitions of ‘working class.’ Some academics dispute the fact that income is an important factor in determining which social class you belong to. It all depends on which definition you use.”
